

RoSPA Report for POOSH Meeting 6 February 2012

- 1) RoSPA is continuing to promote a national debate on what needs to be done to enhance the key role of team leaders in delivering effective H&S management (<http://www.rospa.com/occupational-safety/big-workplace-discussion>). This includes a new learning model and also developing a code of core actions and good practices to parallel the HSE/loD guidance INDG 417.
- 2) We are helping Safety Groups UK (www.safetygroupsuk.org.uk) to deliver its next project which is to bring the '*Health Risks: Do you know yours?*' programme (which has been developed in Scotland) into England and Wales. The idea is to train champions in local groups to use the HRDYKY tool (<http://www.healthyworkinglives.com/advice/minimising-workplace-risks/HRatW.aspx>) in their outreach to SMEs. There will be a launch at the NEC H&S Expo in May.
- 3) RoSPA is working hard to get home and leisure accident prevention re-integrated into the Government's plans for public health which will devolve responsibility to Local Authorities. Details of this campaign are accessible at <http://www.rospa.com/about/current-campaigns/public-health/default.aspx> .

Further info on RoSPA activities can be accessed at our 'What's New?' pages <http://www.rospa.com/news/whatsnew/default.aspx> .
