

POOSH Meeting 11 June 2012

IEHF Report

I give below the IEHF report for the POOSH meeting next Monday.

We have just received notice from the Privy Council that we can proceed to the next stage of our application for chartership.

We are planning an ergonomics year on healthcare ergonomics. We would be very willing to have joint events with other (POOSH?) organisations. I hope to have further information at the meeting.

We are remodelling our website to have one section for IEHF membership information and one for information on ergonomics
